

2007 NORTH DAKOTA FISHING WATERS

The following are public fishing waters in North Dakota listed by county. The numbers in parenthesis that follow each fishery is simply a code used by biologists to help identify those waters managed by the Game and Fish Department. The codes are also found on the map to help readers locate the waters in which they are interested.

Waters with restrictions on boat motors and boat speeds are noted. "Idle speed only" is defined as operating a boat at the slowest speed necessary to maintain steerage (i.e., trolling – with no wake). Waters where darkhouse spearfishing is allowed are also noted. Most North Dakota public fishing waters have boat ramps. If a boat ramp is lacking, it is listed as "no ramp."

Check signs at each area for further restrictions. Use extreme caution when ice fishing on lakes with aeration systems.
