North Dakota Public Fishing Waters Spawning Restriction Dates (Data as of January 1, 2022)

If the quantity of fill material or dredge material exceeds 25 cubic yards, the Department recommends the following Exclusion Dates (No in-water work allowed) to protect fish spawning and the aquatic environment. Dates may vary depending upon what species are present in the water body. In some cases, specific locations on a larger water body may be denoted as a Special Spawning Site.

Location	Restriction Dates
Rivers and Multi-County Systems	April 15 - June 1
McClusky Canal	April 15 - July 1
Missouri River	April 15 - June 1
